Suggestion to Hostess to Bride-to-Be—Shower Carried Out in Jean Ingelw Versé—Tiaras Rarely Becoming—Laundry Shower—For Baby Sister—Bag For Closet Door—Lemonades and Lemon Aids and How to Make Them.

SUGGESTION TO HOSTESS

Here is a clever suggestion for the hostess to the bride-to-be, whose honeymoon will include a trip abroad. A pretty shower I went to last year was carried out with Jean Ingelw's verse:

Heigh, ho! daisies and buttercups,
Fair yellow daffodils stately and tall,
A sunshiny world full of laughter and
leisure,
And fresh hearts unconscious of sorrow
and thrall!

The hostess used white cards written with gold ink, and explained it to be a sunshiny shower for the bride, who was to cross the sea on her honeymoon. She asked each guest to do up her gift in white with yellow ribbon and send it her the day before the shower.

The center piece was a steamer bearing the colors of the line on which the bride was to sail, also the stars and stripes. The gifts were put on the steamer, each fastened with a yellow ribbon hung over the side of the boat. At either end of the table were brass vases filled with daffodils, daisies and buttercups. The candles were yellow in brass candle holders, with shades of yellow. The place cards were anchors of gilt paper with name in blue ink with a good wish for the bride to be.

When refreshments were served the girls pulled a ribbon, bringing the packages off the ship, then put in a pretty bow, tied with gold cord and gold seals; each girl put on a seal for good luck. The packages were marked to be opened one each day while on the boat (if more than eight girls, you may open two each day). Then we all put a few stitches on the bride's lingerie for a good omen from her dearest girl friends.

LAUNDRY SHOWER
I attended a "laundry shower" recently. Each girl guest was told to bring—such as basket, clothes lines, clothes pins and bag, clothes horse, boiler, iron board, irons, covers for ironing board, etc. One end of the dining room was fitted up as a laundry, and after the luncheon each guest had to give an illustrated talk of how to use the article she brought. It was more than amusing, as it showed how few really knew just the proper use of the laundry articles.

TIARAS RARELY BECOMING
So many women make the mistake through ignorance, of believing that jewels cannot be unbecoming, no matter what color, style, or design, but may be worn with success by any type of woman. Yet never was there a greater fallacy!

Because jewelry has a way of asserting itself more than any other accessory of the toilet it should be used most sparingly, particularly as a hair decoration. It stands out and seems to challenge comparison, and how rarely do we see this decided in favor of the wearer? Not often. I am sorry to say, for hard, glittering diamonds worn in close proximity with wrinkled or withered looking skin and faded eyes are sights we see with painful frequency. Certainly they cannot be said to be pleasing by any means.

A really becoming tiara is almost as rare a sight as a Kohinoor stone. The wearer always has an air of deep oppression, or as though she were laboring under a responsibility almost too great to bear.

Diamond earrings are more often than not a "mistaken attraction." It will be well to consider the question

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous lining.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by this Catarrh Cure. Send for circulars, free.

HAVE YOU EVER SEEN MISS "SEPTEMBER MORN" AT BREAKFAST? HERE SHE IS WITH LITTLE "JULY DAWN" AND "AUGUST SUNSET"

The question of clothing is one with which the members of the Repose Nature Cure and Country club of Hastings, England, concern themselves very little if at all. Judging from the photograph, this secluded retreat placed on an elevation of 500 feet in St. Helen's park, is the original abode of the diaphanous gown and the famous "September Morn," both of which have been greatly tabooed in numerous localities where abbreviated clothing is not appreciated; but here the gown arouses no protest and "September Morn" produces no shock.

The Repose club is made up of a membership of men and women who are suffering from various ailments which Nature alone has the power of curing, and "Old Sol" is called upon for his healing influence. The members dwell in cottages whose sides are all windows and the place is amply supplied with lounging chairs and sheltered boxes for sun bathers. Separate inclosures are provided for the male members as well as for families.

OUTING OF THE BREWERY WORKERS

The Brewery Workers outing at the Hermitage yesterday proved all that was anticipated and an exceptionally large crowd enjoyed the hospitality of the day and evening.

The feature of greatest interest during the day was a baseball game in which the Brewers and the Huntsville teams crossed bats. Though handicapped by the unevenness of the field, the teams put up a good game, the final score standing 5 to 7 in favor of the boys from the Valley. The feature of the game was the phenomenal pitching of R. Greenwell, who had 17 strike-outs to his credit and allowed only four hits.

The lineups were as follows:

Brewers.....	Huntsville.....
L. Wright.....	W. Cramer.....
W. Wilkinson.....	S. Smith.....
C. Ransom.....	S. Schade.....
H. Greenwell.....	F. Frorer.....
E. Larson.....	P. Peterson.....
C. Torgerson.....	W. Wangsgaard.....
E. Stewart.....	E. Renstrom.....
J. Johnson.....	F. Felt.....
R. Greenwell.....	P. Sprague.....

Umpire—George Thoma.

In the evening, a large crowd enjoyed the dance in the pavilion, for which an enlarged orchestra had been secured by the committee and a fine program of music was given. As is usually the case, however, on an evening of a big outing, the pleasure is marred by the smallness of the dance hall.

The committee in charge of the program included the following members of the local union:

S. M. Moore, chairman; Eli Lund, Arnold Jorgensen, Enoch Madison and George M. Thoma.

Advice to Those Who Have Lung Trouble

Pulmonary Lung Trouble is said to be curable by simply living in the open air and taking an abundance of fresh eggs and milk. Do all you possibly can to add to strength and increase weight; eat wholesome, nourishing food, and breathe the cleanest and purest air, and then, if health and strength do not return, add the tonic and beneficial effects of Eckman's Alternative. Read what it did in this case:

Wilmington, Del.
"Gentlemen: In January, 1908, I was taken with hemorrhages of the lungs. I took eggs and milk in quantities, but I got very weak. Mr. C. A. Lippincott, my employer (Lippincott & Co., Department Store, 305 to 314 Market street, Wilmington, Del.), recommended to me Eckman's Alternative and upon his suggestion I began taking it at once. This was about June, 1908. I continued faithfully, using no other remedy, and finally noticed the clearing of the lungs. I firmly believe Eckman's Alternative saved my life."
(Affidavit) JAS. SQUIRES.
(Above abbreviated, more on request.)

Eckman's Alternative has been proven by many years' test to be most efficacious in cases of severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn Colds and in rebuilding the system. Does not contain narcotics, poisons, or habit-forming drugs. For sale by A. R. McIntyre, The Haddon Pharmacy, T. H. Carr, Culley Drug Co., Marshall Drug Co., Cave Drug Co., and other leading druggists. Write the Eckman Laboratory, Philadelphia, Pa., for booklet telling of recoveries and additional evidence.

SEEKING HOTEL MAN.
Park City, Aug. 13.—A meeting of the board of directors of the new hotel company was held this morning, and a lively one it proved to be. The question of who was to be given the running of the hotel was discussed at

some length and it was finally decided to advertise for the people to take the place and the person or persons who can post a bond that the new hotel will be furnished as it should be and according to the ideas of the directors and those making the best bids this month will be given the building.

SUMMER-SPOILED SKIN REMOVED BY ABSORPTION

(From Home Queen.)

As undue summer exposure usually leaves an undesirable surface of tan, dust or grease, often freckles, too, it would seem more sensible to remove such surface than to hide it with cosmetics. There's nothing better for this than ordinary mercolized wax, which actually absorbs an unwholesome complexion. The thin layer of surface skin is itself absorbed, gently and gradually, so there's no inconvenience and no detention indoors. Just spread the wax lightly over the entire face at bedtime and take it off in the morning with warm water. If you will get one ounce of mercolized wax at the drug store and use for a week or so, you may expect marked improvement daily. When the underlying skin is wholly in view your complexion will be a marvel of spotless purity and beautiful whiteness.

Don't let those summer wrinkles worry you; worry will breed more wrinkles. Better to banish them by bathing the face in a solution of powdered exfolite, 1 oz., dissolved in 1/2 pt. witch hazel. Used daily for awhile this will be found wonderfully effective.

NEW BOOKS IN THE LIBRARY

The following new books at the Carnegie library are ready for circulation:

Barrett, Geronimo's Story of His Life; Branch, Rose of the Wind; Brooks, The Conflict Between Private Monopoly and Good Citizenship; Burroughs, Leaf and Tendril; Crothers, By the Christmas Fire; Crothers, Humanly Speaking; Cumberley, Changing Conceptions of Education; Dimmore, The New Light on the Old Truth; Earle, The Lyric Year; Fitch, Nathan Hale; Forman, The Ideal Italian Tour; Garrison, The Earth Cry; Gleibist, The Life of Mary Lyon; Gladden, Recollections by Washington; Guiteau, Government and Politics in the United States; Hall, From Youth into Manhood; Hendrick, Poetical Higinson, Part of a Man's Life; Hyde, Sin and Its Forgiveness; Jastrow, The Subconscious; Larned, Books, Culture and Character; Lowell, My Study Windows; McMurry, How to Study; Mins, Sidney Lanier; Moody, Poems and Poetic Dramas; Moody, Prose Plays; Muir, My First Summer in the Sierra; Nelson, Ed., The Chief Elizabethan Dramatists; O'Connor, Heroes of the Storm; Partridge, Story Telling in School and Home; Pinero, Amazons; Pinero, Princess and the Butterfly; Pinero, Second Mrs. Tanqueray; Rand, Modern Classical Philosophers; Repplier, Americans and Others; Repplier, The Cat; Rosenau, The Spirit of Old West Point; Stevenson, Poems of American History; Somermeyer, Coal; Thayer, The Life and Times of Cavour; Wile, Sex Education.

ESCAPED BOY IS CAPTURED

Irwin Grow, 17, who escaped from the State Industrial school eight months ago, was arrested with two companions at Ninth North and the Jordan river, Salt Lake, late last night by Patrolmen W. H. Hendrickson and James Woodard.

During the early evening police of-

ficials received telephone messages from George Robinson, juvenile court officer, he sent to Ninth North and the Jordan river. Robinson could not be found and Hendrickson and Woodard were dispatched to make an investigation. Hendrickson hid in a clump of weeds and soon Grow approached, the officers say, carrying a large stone in his hand.

Grow was being arrested when Jack Wilson and George A. Hare rushed up. Woodard came upon the scene and all three were arrested. They were taken to police headquarters, where

er. Seeing Robinson, Grow said that Robinson arrived a few minutes earlier had he come instead of the patrolmen he would have been floating down the Jordan river with a stone tied around his neck.

DECREASE IN ENLISTMENTS

Washington, Aug. 14.—Enlistments in the army are falling off about 400 men a month and army officials believe it to be due largely to the establishment of the army reserve created by act of congress. However, only eight men formerly in the army, have joined the reserve, which was inaugurated last November, although this record does not include those men who have enlisted since November and who must serve three years in the reserve, following their four years' enlistment.

The average number of enlistments in the army since November 1 last has been about 2000 a month, whereas it should have been about 2400. Officers opposed to the reserve plan contend that desirable men willing to enlist for four years hesitate to bind themselves for seven years, even though in the final three years they would be on furlough. It was pointed out also that "reservists" would receive a bounty of only \$5 a month in case of war, whereas a man who re-enlisted would receive a bounty ranging down from \$8.

FIRST BURIAL IN OLD CEMETERY

Philadelphia, Aug. 14.—The first time in thirty-two years a new grave was made yesterday in the old Hebrew cemetery of the Portuguese congregation Mikve Israel, in this city, when the remains of Miss Josephine E. Etting of Baltimore, great grand niece of Rebecca Gratz, heroine of Sir Walter Scott's Ivanhoe, was buried beside the grave of her famous relative. The old burial spot which was established in 1740 contains the graves of many members of the congregation who lived during the era of the Revolutionary war. It is now in the care of the Hebrew Historical society.

SUFFRAGISTS AT CAPITOL AGAIN

Washington, Aug. 14.—Supported in their arguments by several members of the house, delegates to the National Council of Women Voters appeared today before the house rules committee to urge the creation of a woman suffrage committee in the lower branch of the congress. The women were led by Mrs. Emma Smith Davis, president of the council. Representatives Baker, of California, Keating of Colorado and Fal-

FARMERS TO USE THE PARCEL POST

T. H. Cutler, Postmaster at Trenton, Utah, Writes a Second Letter to the Standard, Urging Consumers to Send Direct to the Country For Their Supplies—Makes Reply to W. A. James—Claims the City People Can Reduce Cost of Living.

Trenton, August 13, 1913.
Editor Ogden Standard: It is not my purpose to enter into a newspaper controversy, as to the merits and demerits of the parcel post system, as the benefits derived from the use of parcel post, speak so loud that what little I may have to say will not be heard. I wish, however, to state that I am not writing to your paper, as a representative of the postal department, but as a citizen, and an observer of our economic conditions.

I am pleased to note that my letter to your paper was read with sufficient interest to call forth a reply. I feel somewhat like Sam B. Payne of St. Louis, who recently wired Postmaster General Burleson that he wanted the position as postmaster of that city, and for reference referred him to the second epistle of John, the twelfth verse, which reads as follows:

"Having many things to write unto you, I would not write with paper and ink, but I trust to come unto you, and speak face to face, that our joy may be full."

I just wish that I could meet the people of your town and explain to them the advantages of the parcel post, as it appeals to me.

David J. Lewis, of Maryland, who is the father of our parcel post system, in his brief to the postoffice department, labels it "A reduction in the high cost of living, or from the garden to the kitchen."

But, as Mr. James of Ogden says: "Let us get down to business." That is exactly what we should do. Is it business for our farmers to sell their hogs to commission men at from 7 to 8 cents per pound, and then buy back at 22 1/2 cents per pound ham, and 50 cents smoked bacon? Now, is

it business to sell a veal at 10 or 11 cents per pound? Ship it 20 or 30 miles, and then pay from 25 to 30 cents per pound for the same veal? Is it good business for our farmers, during the busy season, when each moment is of great value to them, to leave their work, hitch up a team, and drive to the local stores and sell their eggs for 18 cents per dozen, when for 1 cent per dozen they could ship them to Ogden, and put them in the pail of consumers who are paying from 37 1/2 to 39 cents per dozen? Is it business for our farmers to send their children to the neighboring towns to find a market for their garden stuff when they can get 100 per cent more than they are asking if they sell to the consumers in the cities and mining camps? We might as well try to sell coal in Rock Springs, Kemmerer and Diamondville, and ship it from Cache valley and expect to make a profit on it, as to try to grow garden truck in Cache valley and sell it in our neighboring towns. It is like "carrying coals to New Castle."

All these questions the farmers and consumers must answer for themselves, but as far as the farmers of this locality are concerned, they are preparing to ship their stuff by parcel post, direct to the consumer who can save from 25 to 35 per cent by purchasing this way, besides getting strictly fresh supplies from the gardens and the coops.

I was pleased to note that Mr. James was very much interested and amused at my article so are the farmers and consumers, they are most tickled to death at the new order of things, and as soon as the twenty-pound parcel post package is in order, they will adopt the motto, "From the Garden to the Kitchen."
(Signed) T. H. CUTLER.

corner of Washington were on hand to champion their cause. Miss Jane Adams, of Chicago, Dr. Viola M. Coe, of Oregon, Dr. Cora Smith King, of Washington, and Mrs. Frances Bjorkman, of Colorado, were announced to make the principal arguments favoring the appointment of a suffrage committee. The fact that such a committee had long existed in the senate, the women believed, was sufficient reason why a similar committee should be available to them in the representative branch of congress.

In anticipation of a large audience the rules committee abandoned its original intention to hold the hearing in its own room. Instead the women were received by Chairman Henry and his colleagues in the conference room in the office building, the largest structure in the capital.

WOULD RATHER VOTE THAN FIGHT

Chicago, Aug. 14.—"I would rather vote than fight for president," asserted Frank Rodriguez, a native of Guadalajara, Mexico, in applying for naturalization papers yesterday. "They revolt before breakfast every morning down there and you never know which side you're fighting on. If you go into any kind of business and make a success, revolutionists come along and wreck it. They simply won't let you amount to anything."

PHYSICAL AND MENTAL TRAINING

Philadelphia, Aug. 14.—Twenty girls, ranging in age from 10 to 12 years, will be started on an 11-year course of physical and mental training at Bryn Mawr college next month, on what is planned to be the latest and most advanced theory of education, according to plans made public today. The class will attend school in the open air, bunched up in Eskimo suits in the winter and with only glass windows to shield them in stormy weather. The course for the first seven years, the elementary

part of the training, will include instruction in interpretative dancing, gymnastics and athletic games, including baseball. Lunches will be served in the open air school and a half hour each afternoon will be given to sleep. From the time the class enters next fall until the seven years of elementary training is completed and the girls are ready for the four years' college course, the pupils of the school will study, eat, sleep and play in the open air from 9 o'clock in the morning to 3:30 in the afternoon.

The school was made possible through a legacy left in 1910 by Phebe Anna Thorne of New York and it has been named for her.

CANNOT WEAR THE SLIT SKIRT

New Britain, Conn., Aug. 14.—Several hundred young women stenographers and clerks employed by a large manufacturing concern here are receiving polite notes in their pay envelopes this week with warning that the slit skirt, the hobble and diaphanous skirts are not to be tolerated. Each girl is asked to appear for work in businesslike and modest clothes.

WAR TIME CONDUCTOR DEAD.

Schenectady, N. Y., Aug. 14.—Thomas A. Tellitt, a war time conductor on the Erie railroad, and widely known among railroad men, is dead here, aged 89 years. He ran an Erie powder train during the civil war, being one of that road's conductors for 20 years. Later he operated part of the Ontario and Michigan and was for time superintendent of the Pittsburg, Lake Erie & Newcastle railroad. He was a second cousin of the late Henry Flagler, the Florida railroad builder and also of Ezra Cornell, founder of Cornell university.

DEFEAT OF THE STRIKERS

Duluth, Minn., Aug. 14.—Protection by the Duluth police department was withdrawn from the Duluth, Missabe & Northern docks today. The special police gradually will be withdrawn. Defeat reluctantly is admitted by members of the Industrial Workers of the World.
